Buy an Irrigated Farm FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE:

Irrigation makes the farmer independent of rainfall, and assures good crops, not occasionally, but **every year**.

Irrigation makes possible the successful culture of rainfall, and the kind of gardens which insures good returns for dairying and mixed farming.

Irrigation means intensive farming and close settlement, with all the advantages of a well regulated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment. The year that it has been in effect having demonstrated its success wherever intelligently applied.

This is the most liberal offer of Irrigated Farm Land on record.

For full particulars apply to

Things We Have Been Told

Mr and Mrs F. W. Dalsell have removed to their new house.

Pete Nelson received word last week that his nephew, Harry Johnson, had died in England from the effects of wounds received in battle. Wounded about 2 years ago he recovered somewhat, and was sent to Belgium on relief work. While there, he contracted a sickness, from which together with the old wounds, he died.

There will be a meeting of the Horse Breeders' Association Monday night. This will probably be the last meeting of the season, all interested in the breeding of good horses are urged to be present.

J. H. Gasson

Earl Hodge is working for Chris Gleddy this summer.

G. R. Blundell, who is Baptist minister in Medicine Hat, is working on the Military Service Department of Y. M. C. A., this summer and was in town last week preparing to make arrangements for the big drive this organization is to make next month. The people remembering the address of Capt. Pearson during the winter, have already promised their support for this work.

I am shipping hogs and cattle on Tuesday, April 30th. F. W. Dalsell, Agent United-Greul Growers

Miss M. Ingalls, who has been visiting her uncle W. J. Hall, for the winter, has received the sad news that her mother is dangerously ill with pneumonia. Miss Ingalls will leave for home in Vernon, by the early morning train.

Rev Jones, of Medicine Hat, is taking over the work of Rev. Gibson, at the Anglican church.

There will be a meeting of the tennis club on Saturday afternoon at four o'clock. The officers for the coming season will be appointed and other necessary business.

Brutus

Wednesday week ago a surprise party waited on Mr. McLaughlin and bride.

School has started with Miss Vaughan as teacher. The trustees have built a new stable.

What's the attraction in Alderson for W. M. McEwen? that he should walk to Roy Garbutt's to persuade him to drive into town to the show and dance. His plan was in vain as Roy was leaving to leave his little wooden hut.

Fred Whitehead has disposed of his yellow geared buggy and has now a tin geared Ford, which he overhauled last week ready to give the girls the time of their lives this summer.

H. Knudson attended the reception at McLaughlin's and reported having had the greatest time.

A Box Social was held at the Golden West schoolhouse on Saturday to raise money for an organ.

Seeding is now in full force.

John Sol has moved his outfit to C. J. Steele's crop.

Pete McDonald, famous wagon driller, not mixed up with the wagon and the wheel went over his

Formaldehyde Not Doped

Word was received this week from the Department that after a five days test, from 25 different points grain was found to be of high germination and strong vitality, and that 19 chemical tests show that Formalin has not been tampered with.

Notice—Tuesday, April 23rd is declared to be Clean Up Day. Citizens are asked to have all refuse, etc., carted away then. Keep away the flies.

G. M. Thompson, Reeve

leg and Roy Garbutt's sitting room was turned over.

Mr and Mrs K. Dewar, having spent the winter in Calgary, have returned to their farm.

After the U. F. A. meeting last Saturday, the members motored to Bingsville and paid their respects to Mr and Mrs F. Stickles. As Fred is naturally a little hard of hearing the "BAND" had to play a number of ragtime pieces before his could be persuaded to don his clothes and distribute the crowd.

M. Ballard and W. B. Bodman are building new barns on their farms this spring.

R. H. Cuthbertson has purchased a horse from Alf Truman. From the appearance it looks to be the missing link in the horse family.

Clifford Turtle is confined to his bed by a severe cold.

Jim Van Leeuwen, the late king of horses, has completed his new palace at Brutton.

I. C. Jones is building a new house on his farm. Yes, it is officially reported that he intends to get a cook this spring. Poor girl!

Philip Larson says that meatless days have no terrors for him as he prefers chicken. Did someone say "yikken"?

There will be a meeting of the tennis club on Saturday afternoon at four o'clock. The officers for the coming season will be appointed and other necessary business.

Fight with Food

A Call to the Whole Dominion for the Utmost Effort to Produce Food for our Soldiers and Allies

OUR ALLIES are desperately short of food. In the midst of plenty ourselves we must face the stern reality of England on shorter rations than she has been for over a hundred years, and France with only three days' food reserve. Even from their present small supplies they are saving Italy from collapse through hunger.

Since shipping must be concentrated on the shortest routes, Canada and the United States must continue to be practically the only source of supply.

Canada must provide wheat and meat in increasing quantities to meet a situation that imperils the issue of the war.

Men who can be spared for work on the farms must serve in this way. Those who are obliged to remain in the city or town can at least raise vegetables in their gardens or on vacant lots.

Every effort will be made to see that labor is forth-coming to harvest the maximum crops that farmers can produce.

An increased spring acreage in wheat and other grain is vitally needed.

Stock raisers are asked to provide the greatest possible production of meat, especially pork.

Everyone in Canada must fight by doing his or her utmost to produce and to conserve food.

Honoring the Sailors' Friend

The Beneficial Influence of a Missionary on the Lives of a Ship's Crew

As a boy, the writer was many years a member of the crew of long duration, by an uncle that at that time in command of a large ocean steamer, to London via Pitcairn Island and Venezuela after loading operations at that latter place, took aboard a number of missionaries. Among these was a lady missionary returning to England from South America.

After leaving the Chilean port, heavy weather was encountered, the cost of passage being for several days, but entering the Straits of Magellan, better conditions prevailed.

The weather then proceeded through this cut off on the second Sunday of the voyage, provided the Sunday service, the usual church service. Hence, during the afternoon she accompanied two stewardesses after loading operations on the forward deck. She commenced to play the instrument, that being a tenor, and recited, shall fine voice, singing the beautiful hymn "Jesus, I love Thee." The sailors' forecastle, a short while only elated by the organ, was soon to be observed listeners, the close of this hymn, the missionary had her voice to God in prayer.

There was a terrible storm on the deck of that steamer paddling its way through the Straits to the port of Callao, where the migrations of the passenger continued during the succeeding Sunday. Very frequently could the missionary be noticed talking with little groups of sailors, who had never before passed this noble woman, but on touching their caps to the "Son of God" who had been so often spoken of by the crew. On the last Sunday, however, when the vessel was in the harbor of Callao, a farewell service was conducted. At this function, the captain, a God-fearing man, led the crew, the officers, who was much respected by the men for his kind words at all times, in the singing of hymns. The one hundred and seventh. Following a hymn and recitation of the prayer of Jesus Christ as a cleansing medium from all sin, at the close of the service, the crew, on the deck while a beautiful appeal to God on behalf of the poor, presented their offering.

During the time of the voyage, it had been remarked several times by the captain, that the crew, most of whom were from the United States, were different in conduct to that of previous voyages. A reason was given, that the Gospel of Jesus Christ, when properly applied to the lives of sinful men, possesses power to move them.

The following morning shortly after nine o'clock, the steamer entered Plymouth Sound, a unique opportunity for sailors to take a rest, as sailors are never forgetful of kindness. When the tug for conversion, the "Good Shepherd," was alongside, the vessel, officers, crew, friends and stewards, all stepped on deck to receive the missionary by the arm, escorted her to the tug. As they passed down the harbor, many sailors who had headed for "sea horses" were being accounted as noble women, who as a step on the way to the elopement of cheering such as only the voices of seafarers can raise. The "Good Shepherd" was received by the incident, was only able to make a brief reply in which she urged every sailor to accept the gift of eternal life.

What a power the Gospel of Jesus Christ has over lives of men such as formed, years ago, the crews of occupying steamships—J. D. Athelney Evans.

What Western Canada Is

A West Territory With a Population of Less Than Two Million

"Western Canada" in the sense that the term is generally used, comprehend the provinces of Alberta, Saskatchewan and Manitoba. The area of each province is roughly 200,000 square miles. The total area, 750,000 square miles, is six times the size of either France or Germany. The area of the state of the state of California, fourteen times that of the state of Massachusetts, is the same as the state of New York, and ninety times that of the state of Massachusetts.

These provinces comprise a land area of 48,000,000 acres. At least 20,000,000 acres are good farmland, but not more than 10,000,000 acres, but no more than 23,000,000 acres are actually cultivated at the present time. The average acre contains twelve per cent of what is known to be good at present utilized, all the remainder, arable land, is either set aside.

The population of these provinces is about one and three-quarters million.

On Duty Elsewhere

An Irish soldier had lost an eye in battle, but was allowed to continue in the service on account of his unique physical place. One day, however, he appeared on parade without his artificial eye. He was not properly dressed. Why is your artificial eye not in its place? "I left it in my box to keep an eye on us, hit while I'm on parade."

Advertisement in a street car, Halifax, England:

"The family ties and business ties and family ties of birth, but the shilling ties we advertise are the finest ties on earth."

Successful Potato Growing Hints for Prairie Farmers Supplied by Dominion Experimental Station

Potatoes, owing to the demands of our market, should be raised as a profitable human food. It behoves all good gardeners to endeavor to secure a good crop, and to do this from any area, since the shortage of labor, certainly any very increased acreage.

From experiments conducted at the Dominion experimental station, it is known, however, that a number of conclusions have been drawn which it is hoped may be of value not only to the farmer, but to the amateur gardener. Hence, during the afternoon she accompanied two stewardesses after loading operations on the forward deck. She commenced to play the instrument, that being a tenor, and recited, shall fine voice, singing the beautiful hymn "Jesus, I love Thee." The sailors' forecastle, a short while only elated by the organ, was soon to be observed listeners, the close of this hymn, the missionary had her voice to God in prayer.

There was a terrible storm on the deck of that steamer paddling its way through the Straits to the port of Callao, where the migrations of the passenger continued during the succeeding Sunday. Very frequently could the missionary be noticed talking with little groups of sailors, who had never before passed this noble woman, but on touching their caps to the "Son of God" who had been so often spoken of by the crew. Food Saving in the Home SPLENDID EXAMPLE OF CANADIAN WOMEN

MRS. MARTIN BURRELL

"If all the women of Canada realized the danger of famine, they could not wait for another to think of the future. Now, as never before, they must provide for themselves. The man can't do all with all their might. There was never a time when they had a better chance to do great work than now, and their service will be needed."

—Mrs. Martin Burrell.

"Want not—want not." It was one of the first things I learned in England. People are brought up to believe that there is no want, so every vacant lot is seen to make the poor around them that realize the sinfulness of their want. The women care for the soil, the men care for the station service. The assistance of everyone counts. I am particularly fond of the secretary of state, Mrs. Martin Burrell, who believes firmly in the good old-fashioned doctrine of thrift. She thinks the present generation of men and women are the most economical, frugal, economical ways of the mothers and grandmothers who spent most of their time in the kitchen, the care of their homes, spinning and cooking and attending to the general work of the house.

"In God we trust, and in thy good works we trust," is the motto of the young potato shoots are six inches high. As soon as the rows are clear of weeds, the man will turn over the soil, then on, the single horse cultivator can be used whenever it is sure to be misconstrued when he has to dictate to the people at large, and the people will be more than glad to hear what they must eat. It's always a hard matter to say what another person's problem is, but I think that the people of Canada are beginning to realize their own problem.

Mrs. Burrell does not believe in the good hard and fast rule for the cultivation of the soil, but she believes in the necessity for compulsory rationing.

"I am glad to see that the man who spoke of one Englishwoman in particular whose husband was killed at the front, and who had to leave him in a luxurious English home, but she turned her hand to the plow as if she were born to it, and she has been running the farm successfully with the help of her children and some

Preparing the Soil Some Sage Advice for Gardeners to Follow

The preparation of the soil before planting is very important to success in growing nearly all crops. This is where most of the work is done. We get in a hurry and then plow, and harrow, and then think that we have done the best for the seed. There may be enough trash in the soil that has come up from the bottom to hold the soil in an extent that will cause rapid drying. This will not show up until the sun comes out, and then some spots will appear in the growth of the crop. We may have plowed the soil so hard that we've got a cloddy soil that will be ruined for good crop production for a year or two. The soil should be as light and loose when the seeds are planted that they will start to germinate and die back, and then the roots will be very strong, and the seed bed is half the battle.

A deep, rich, yellow soil is the ideal garden spot, and this should be plowed when the soil is in the condition of plowable, and never when it is wet enough so it will pack into a half inch clods. This is the best way to do it.

Developing the Wool Industry

Outcomes of a Movement for More and Better Wool

A movement which will probably have a most important bearing on the future of the sheep industry in Canada is the formation of the Canadian Wool Growers' Association Limited.

This association is the outgrowth of movement for more and better wool which has been very active during recent years. Particularly in Western Canada have the results been most gratifying.

ROSY CHEEKS or HEALTHY COLOR indicates Iron in the Blood. Pale or anaemic complexion is a sure sign of Iron deficiency which will be much helped by

CARTER'S IRON PILLS

Prussian Boosting a Habit

The Kaiser's habit of boasting is probably the reason why he is regarded as the greatest of the Great, when reviewing his giant Guards, that he turned to his Adjutant and said, "If I could tell him if he could truly say that an equal number of Englishmen could beat them in a race, he would be an ambassador." "I won't pretend to say they could—but I know that half the number would try."

Proved Once More

In Southampton, Ont.

THAT DODD'S KIDNEY PILLS
CURE RHEUMATISM

Harold D. Bertram Had Inflammation of the Kidneys. He had a Box of Dodd's Kidney Pills. Cleared It Out of His System.

Southampton, Ont. (Special)—The doctor said that he had suffered kidney and that Dodd's Kidney Pills will cure it again.

Harold D. Bertram, a young man well and favorably known here, had an inflammation of the kidneys and was given Dodd's Kidney Pills cured him.

"The doctor said my trouble started in the kidneys and he said, 'I am sure you have kidney trouble, but before all that is put the necessity of getting a good night's sleep, for in kidney trouble you have to sleep well.'

Just a few years ago 180,000,000 people in the world were like Dodd's Kidney Pills. Now there are 1,000,000,000 people in the world, where raised in the west, so the total added to the world's population is not less than 150,000,000 hundred.

It means that every available man, woman and child will have to do his share in the job. An army of 25,000 school boys will help put in the 150,000,000 hundred, but that added to them will be an army of 25,000 young women, who are the backbone of the world.

The world's trouble comes from his kidneys is shown by his mother. She has been a widow for 10 years. She has three sons, two sons and two daughters. There were flashes of light in the eyes, a dragging sensation across the lower left, always thirsty and felt heavy and after a while, pain.

Rheumatism is caused by uric acid in the blood. Curid kidney strain the kidneys and Dodd's Kidney Pills cure the kidneys.

Such Extravagance

Five silk waist patterns were sold gold and silver threads were used by the Turks as sand bags covering for their trenches in Palestine.

There is more Carter's in this section of the country than any other, and for years it was supposed to be a vegetable remedy. It is now known and by constantly failing to cure with the vegetable remedy, it was discovered that it is a local disease greatly influenced by constipation, and that the vegetable remedy was not the best for the condition.

It is a well known fact that the German prisoners of war in the United States, who were held in the same conditions as the German prisoners of war in the United States, were held in the same conditions as the German prisoners of war in the United States.

Tender Memories

"Shut that door!" yelled the rough man. "There were you raised?" "Yes, sir." The man was very weak and silently complied, but the speaker looked at him a moment later, when he was about to turn and go over to his victim he apologized. "Oh, come," he said soothingly, "you should not be afraid of me." "I asked if you were raised in a barn." "That's it, that's it," sobbed the other man. "I'm a man, but I'm old and it makes me homesick every time I hear an as barn."

The Warden—"I'll have to give you ten days in solitary confinement. No 900—Fine! Now I'll have me meals served in the room."

MEAD SISTER LANTHROP

"About eight months ago, I had a very bad attack of constipation. I was taking a decoction of Little Liver Pills, but it did not help. I then took a decoction of the tea for the kidneys, but it did not help. I then found myself perfectly relieved."

—G. A. PARSONS

Fit Punishment

The druggist died and face to face With Peter at the entrance stood. Said Peter, "I'm sorry, but I think you'll doubtless say it's just as good."

Wonders of Surgery

New Glass Eyes That Can Move and Wink.

A British army surgeon describes an improved glass eye which can move. The chief drawback to the ordinary glass eye is that, being only a glass, that of glass, it tends to sink into the socket, and is fixed in a stony stare. The new device gets over these difficulties by being made of glass and eye of living cartilage or gristle taken without risk from the patient's ribs. It is in all one operation.

While one surgeon removes the pieces of cartilage from the patient's breastbone, two others, one of whom is placed in the socket, and the other outer covering of the eye, are held in position by a wire. It is in place. The ordinary glass eye still is inserted over this, and is preserved by a wire which prevents the movements of the eye by the wearer is said to be possible.—San Francisco Argonaut.

Demand for More Wheat

Grain Must Be Had to Feed Allies
in Order to Keep Up the
Ripe Crop.

Manitoba used to have a slogan—A Million for Manitoba? It was a perfectly good slogan, but for a new one has arisen that embraces the whole west. It is "180,000,000 bushels of wheat this year at least."

It's a slogan that is being taken up in all sections of Canada, the bread basket of Great Britain, and perhaps of other countries, too. It is a slogan that has a fairy and square. It is Canada's greatest chance to win the war, recently made in the Manitoba legislature by Hon. Thomas Johnson, who is giving the first speech of the premiers at Ottawa.

Canada has sent men and money to the Allies, but it has not sent wheat, but before all that is put the necessity of getting a good night's sleep, for in wheat there is a great army of the world.

Just a few years ago 180,000,000 people in the world were like Dodd's Kidney Pills. Now there are 1,000,000,000 people in the world, where raised in the west, so the total added to the world's population is not less than 150,000,000 hundred.

THE ALDERSON NEWS

Published Every Thursday by
R. H. THORNTON

Pearsonville

Seeding is general this week.

Miss Dalton reported on the sick list last week, is herself again.

Word has been received W. Phalen, who was on the ill-fated U.S.A. transport, sunk off the Irish coast recently, by a German sub. Bill is in France and enjoying good health.

Born to Mr and Mrs H. Rosier a daughter.

Mrs A. Piehl and baby arrived home from the Hat on Sunday.

A. W. Maynard had a shingling bee on Monday last. Twelve men reported for work and into short time his barn was shingled. Just as the men on one side had nicely got started to work, Bill Cook started up the ladder with a bundle of shingles and down came the scaffold, a pile of men and planks! A. Kohn hung to the roof, while two others seemed to carry their weight on one shingle until a ladder was put up to them. Fortunately, no one was hurt.

Our school is full, and as we look around the district, we wonder what the school board will do next year for seating capacity.

Did I hear you say church? Last week word was brought round that church service would be held at Mr. J. Whitlock's on Sunday. Sure enough the country side was out in full strength, some clad in their Sunday faces, while others wore the same old smile. By two o'clock the room was well filled—the good

man with the sermon sure must have got lost. Still we waited, but no preacher in sight, a song service started at four o'clock and all went home saying that it was too bad the preacher did not come. No doubt he will make arrangements later for a service.

The dance given by the young people at the home of W. Stokes, on Friday last was well attended.

We are sorry to report that Mr. W. McKinney is not improving so fast as we expected. He left on Monday for the Hat, to undergo medical treatment.

The Harvest is going along fast. The board is looking for a teacher for May 15th.

A good crowd attended the meeting of the Red Cross last week.

Jim McKinnon sold his fine driver to Rev. Steele, of Alderson, last week.

Several complaints are going in from farmers who think that they are not receiving the shorts and bran.

The question of good roads is in the air. The writer will try and give some information regarding this work in the next issue of the Pearsonville items, so look for it.

Joe Dupres has rented Mr Scarles farm and will move from Scarles this week. Mr Scarles will move to the States, where he will live in future.

A. A. Stewart paid a visit to the Hat on Saturday.

A Truck for the Farmer

FARM equipment which will effect a time and labor-saving, and therefore a money-saving, must be carefully considered by every good farmer now-a-days.

The farm wagon, which for years was the most useful of all farm equipment, is now being replaced on the best farms by a sturdy, dependable motor truck. The truck will haul any farm product—fruit, grain, vegetables, stock, fertilizer, or wood—around the farm, or to the town or city many miles distant, in half the time, and at a much lower cost.

The Ford One-Ton truck is a rapid, economical and very serviceable means of transport. One of these on your farm will save you weeks of time in a single season and will enable you to pass through a crisis of labor shortage with less difficulty.

The Ford truck is supplied as a chassis only. This permits you to select any of the many body styles especially designed for the Ford truck and already on the market. Thus you can mount the one which suits your individual requirements.

Price \$750 f.o.b. Ford, Ont.

Three of the many body styles that may be mounted on the Ford truck chassis

The Amusements Tax Act.

To take Effect on, from and after May 1st, 1918.

Every person attending an exhibition, performance or entertainment at a place of amusement to which an entrance or admission fee is charged shall on each admission thereto pay an amusement tax at the following rates:

- When the price of admission is from 10c to 20c inclusive, a tax of 1c.
- When the price of admission is more than 20c and not more than 75c, a tax of 2½c.
- When the price of admission is more than 75c and not more than \$1.00 a tax of 5c.
- When the price of admission is more than \$1.00 but not more than \$2.00, a tax of 10c.
- When the price of admission is more than \$2.00, a tax of 25c.
- A tax 25c shall be paid by every person attending any boxing bouts or contests.
- When admission is given by pass or complimentary tickets a tax shall be payable at the highest rate charged for the performance to which admission is granted.

PENALTIES

Every person who, without having previously paid the tax provided by this Act, enters a place of amusement in the Province for the purpose of attending an exhibition, performance, entertainment or game shall be liable, on summary conviction, to a penalty of not more than \$50.00 for each offence, and in default of the payment of the fine and costs, to imprisonment for not more than six months.

Every owner of a place of amusement and every employee of a place of amusement who permits or authorizes or is a party or a privy to the admission of any person to a place of amusement for the purpose of attending an exhibition, performance, entertainment or game therein without payment of the tax provided for by this Act, shall be liable, on summary conviction, to a penalty of not less than \$25.00, nor more than \$200.00 for each offence, and in default of payment of the fine and costs, to imprisonment for not more than six months.

Edmonton, April 15th, 1918

E. TROWBRIDGE, Deputy Provincial Secretary
